Please comment on your overall educational experiences at Texas A&M and the Department of Agricultural Economics -

I think that my education has been very effective in preparing me for a variety of different jobs after I graduate. I am confident in my ability to perform many different tasks in the financial and real estate industries.

I loved everything about Texas A&M and the Department of Agriculture Economics!

These departments, and especially its counselors, are amazing.

Great experience, love AGECE

I think it was awesome. 10/10 would do again.

It has been a great experience that I will remember for the years to come. It has provided me with an amazing education that I am truly grateful for.

Overall, I had a really great experience in this department. I learned a lot of valuable information that I will take with me for the rest of my life and professional career, and I was able to meet a lot of other students that have future goals aligned with me own that I will remain lifelong friends with.

I found this department to be the most welcoming/nurturing departments on campus. The professors were very receptive to hard working students who were struggling and really took the time to try and teach them rather than ignore them.

My overall experience was great. Most of the professors in the department were always willing to help.

I am proud to have been in the Department of Agriculture. The professors have all been outstanding and whenever I was in the need of assistance, the advisers were always there to help.

I thoroughly enjoyed my time at Texas A&M and with the Department of Ag. It developed my leadership and communication skills and has prepared me for a successful career in the future.

The communication between advisors to students was excellent, I was constantly updated and aware of changing events or things I needed to get done from an enrollment standpoint. Being a transfer student, I got beat down academically the first semester but quickly caught on and didn't have any more GPA issues. Honestly I loved the close knit community and the feel that the department has which extends from every teacher, advisor, and student alike. There was never a time I couldn't call someone for help, I wouldn't change a thing. Thanks!

I love the university and the Agriculture department is the best.
