Basic instructions for setting up an LDAP Address book for Microsoft Outlook 2010

http://office.microsoft.com/en-us/outlook-help/add-or-remove-an-address-book-HA010356425.aspx?CTT=1

Note: When searching an LDAP address book, use the "Advanced Find" options and select the field you are search (I.e. Last name) and type in the required information and press OK.

GroupWise Address Book

Server name: agmail2.tamu.edu

Display Name: GroupWise LDAP

Connection Details - 389

Search Base - Select Custom and type: AgProgram

Note: Only Name and email address are visible via GW LDAP.

Note: Searches in Outlook for GW Addresses must use "Advanced Find". Last name: field is an effective search.
