

HOW TO ACCESS YOUR EMAIL

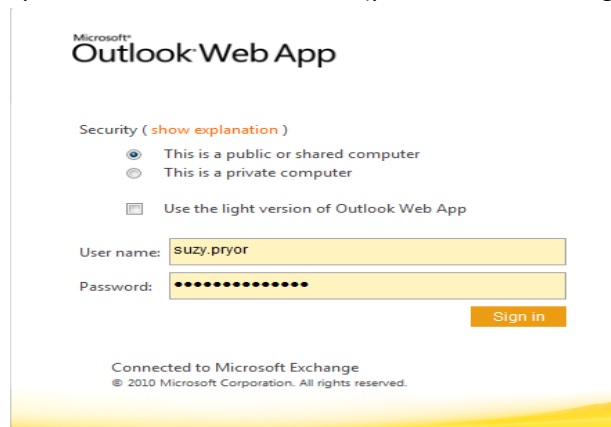

To access your email you will need to login with your new AgNet Email account and change your password. I recommend changing it to be the same as your AgEcon Computer password and change it from:

<http://owa.agnet.tamu.edu>

Login: with your *firstname.lastname*

This is an example and this is a zero →

Temporary Password:  (you will need to change this in the next step)

Change your Temporary Password for your AgNet Email Account

Once you have successfully login to the new AgNet Domain, please proceed to “Options” and “Change your Password” where you can change your password, do not forget to do this step. I recommend changing your password to the same password you use when you login to AgEcon Computers.

How to Access Email Using Outlook Web Access
New Features in Outlook Web Access

<http://owa.agnet.tamu.edu>

Set Automatic Replies

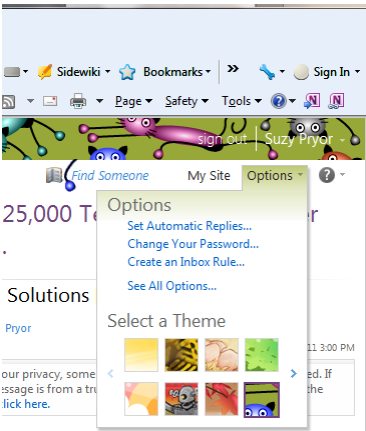

Change your Password

Create an Inbox Rule

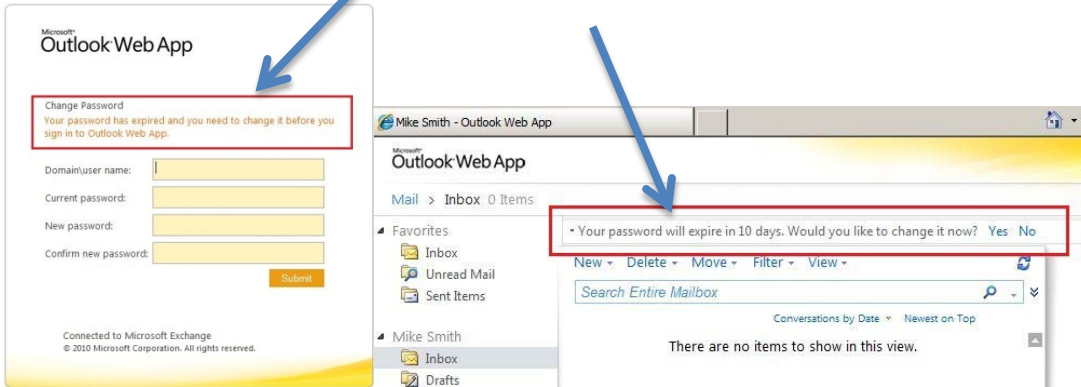

See All Options – Review all the default settings, change and save

Select a Theme, choose & click

Save this information for future reference, you can use the same procedure when prompted to change your password. New Features – You can now change your password from OWA from any remote site. You will be prompted 14 days in advance and continually until your password has been changed.

The process is complete; this is your new email system. This new account is only for accessing email.

[Enroll](https://agrilifepass.tamu.edu) in the self-service account management system and have 24/7 assistance when you need it. Go to <https://agrilifepass.tamu.edu> to reset your password, unlock your account, or change your password.
