**CLUES**

Looking for a different kind of class experience? Interested in learning more about who you are and why that’s important to leadership? Excited about participating in cultural activities (attending plays, museums, and festivals)? Will you be a sophomore in the fall of 2015? If you answered yes to any of the questions above, C.L.U.E.S is for you!

**Got a CLUE?**

The Cultural Leadership, Understanding, and Exploration for Sophomores (C.L.U.E.S) learning community is a one year course-credited program for sophomores focused on leadership and multiculturalism. Selected sophomore students will have the privilege to participate in various experiences that will challenge their thoughts, actions, and behaviors while having the time of their lives!

**What makes this program special?**

The course is broken down into two semesters: a three-hour course in the Fall and a three-hour course in the Spring. Also, the classroom curriculum experience will be brought to life through co-curricular activities such as interacting with major Texas A&M University administrators, attending a football game at another institution, tasting food from all over the world, and going to see world renowned performing artists. These courses may count towards Texas A&M University mandatory diversity credit hours.
**GET A CLUE!**

If you would like to learn more about this program or hear what our students have to say and for an application, check out our website at [http://clues.tamu.edu](http://clues.tamu.edu).
