26th-28th-AAEA&WAEA Joint Annual Meeting

Rosson's Roundup

First, I want to congratulate Titus Awokuse who has been appointed Chair of the Department of Agriculture, Food and Resource Economics at Michigan State University. Titus graduated from Texas A&M University in 1998 with a PhD in Agricultural Economics. Titus will assume his new role on August 15. Congratulations again, Titus!! Thanks to David Bessler for passing this information along to me.

Our 14 students returned from study abroad in France this week. After a month in the country, they are well versed in agriculture, agribusiness and agricultural policy affecting France and the European Union. They also received a solid foundation in French history and its relationship to contemporary food policy. Many thanks to Dmitry Vedenov who led this trip and coordinated their studies. I visited with Dmitry Wednesday and he believes it was a very productive experience. Also thanks to the Dean's Office for supporting this, and our study abroad programs as well. Next week Dmitry will provide us with a summary of their activities. The program is hosted by the Ecole Supérieure d'Agriculture in Angers.

I'm in Guatemala this weekend teaching a course in International Trade as part of our Executive Master's program at the Universidad del Valle de Guatemala. This is our 20th year of the program and we now have more than 220 *graduates* out across the country and throughout Latin America.

Our migration to the Texas A&M University Exchange is progressing well. I've made the move with no problems at all, thanks largely to our own IT staff. For me the biggest issues centered around having continuing connectivity for desktop, laptop and of course, the ever present cell phone with email capability. I hope we have everyone moved over by the end of July. I know there have been some disruptions of email due to 'disappearance' of address, but I think all of those have been recovered quickly. Thanks to Suzy Pryor, Alex Rohr and Eduardo (Eddie) Villarreal for making this a very smooth transition!!

Have a great weekend!

Did You Know...

Texas leads the nation in cattle, cotton, hay, sheep, goats and mohair production. Texas leads the nation in number of farms and ranches, with 248,800 farms and ranches covering 130.2 million acres. Texas has more women and minority farm operations than any other state in the nation. Texas also leads the nation in value of farm real estate. Rural lands, including privately owned forest, total 142 million acres, 84% of the state's total land area. 12% of Texas' population resides in rural areas. 1 of every 7 working Texans (14%) is in an agriculture-related job. 98.6% of Texas farms and ranches are family farms, partnerships or family-held corporations. The average age of Texas farmers and ranchers is 58 years.

Upcoming Birthdays
