

## HORT 450 – Processing Coffee

The course will examine the principles behind **processing of coffee and other high-value food crops (cocoa, tea, etc.)** including production and different unit processing operations, methods for preservation, packaging and marketing strategies. The course will also include a visit to a coffee roastery.

Instructor: Dr. Luis Cisneros-Zevallos ([lcisnero@tamu.edu](mailto:lcisnero@tamu.edu))

Invited instructors: Dr. Leonardo Lombardini & Rodrigo Chavez from TAMU Coffee Center

## Selfless Service Opportunity – Peace Corps

Information Session

April 26, 2018

5:00 – 6:30 PM

Allen Building, Room 1108

My name is Holly Van Groll and I am a Regional Recruiter with Peace Corps. Next week, Thursday April 26<sup>th</sup>, I will host a [Returned Peace Corps Volunteer Panel](#) on campus to share with students the benefits of serving our global community, and how doing so can greatly influence their career trajectory.

Currently, our programs in highest need are those in the [business](#), [agriculture](#), [health](#), and [education](#) work sectors. Do you have students dedicated to service and

interested in an international career in development? Do these students have basic Spanish or French language skills? Peace Corps is an incredibly rewarding professional and personal development experience, one I can attest to personally as a former A&M student who served in Zambia 2013-2015.

Peace Corps is a life-changing post-graduate opportunity with many benefits to not only our developing international communities, but to the Peace Corps Volunteers themselves. We will also cover the application process and resume preparation, so interested students will have the tools and resources necessary to create and submit competitive applications. You can learn more about Peace Corps service by visiting our website [here](#).

**READY TO MAKE THE  
MOST OF YOUR WORLD?  
DO THE UNEXPECTED.**

Attend a Returned Peace Corps  
Volunteer Panel to learn more!

Thursday, April 26th, 2018

## **Chase Leadership Development Program Summer 2018**

### **Internship Opportunities**

We are excited to announce that we are re-opening our job posting for the **2018 Summer Internship Opportunity** with the **Chase Leadership Development Program!!**

This posting will only be open until **Friday, April 20<sup>th</sup>**. With this expedited processes we are turning to our school partners in hopes that you could pass the word to the students on your campus quick manner. The students must use the below link (which leads to the jpmchase careers website) to apply or they will not be considered for the role.

If you have any questions or concerns please feel free to reach out to either myself or Chloe Ford (cc'd on this email). We appreciate the help in getting the word out and apologize for the needed quick turnaround.

#### **[Chase Leadership Development Program Summer Analyst Opportunity](#)**

**Matthew R Bommarito** | Analyst | Campus Recruiting Sr. Professional | Chase Consumer & Community Banking | 28 Liberty Street, Floor 27-New York, NY 10005 | T: 212.623.0417| [matthew.r.bommarito@chase.com](mailto:matthew.r.bommarito@chase.com) | [jpmorgan.com/careers](http://jpmorgan.com/careers)

Our General Management track within the Chase Leadership Development Program is a 10-week internship that will provide you with invaluable work experience across our CCB businesses. As a Summer Analyst, you will have the opportunity to work closely with some of the best and brightest on projects tied to our business priorities and growth strategies

Your work will influence one of our Chase business units – Auto, Business Banking, Card, Chase Wealth Management, Consumer Banking, Digital, Marketing & Communications, Merchant Services, Mortgage Banking, Oversight and Controls, Operations and Strategy. Within the General Management program, projects may include using data analytics to

measure operational effectiveness; business case development for new digital features or functionality; project management for high visibility brand, marketing & media initiatives; evaluating and quantifying business strategy while upholding business controls and regulations; or strategizing marketing initiatives for the various Chase products and services.

Our training curriculum will enhance your business knowledge and professional and technical skills. Frequent manager feedback, coaching, peer mentoring and opportunities to build your network will round out your internship experience. You may receive an offer of full-time employment upon successful completion of the program.

#### Key Qualifications:

- Pursuing a B.A., or B.S. degree with expected graduation of December 2018 or May 2019. All majors considered.
  - Minimum GPA of 3.2
  - Excel and Word proficiency
  - Exceptional analytical, interpersonal and communication skills –We encourage everyone to bring their whole self to work because being well-rounded matters.
  - Excellent project management and problem solving skills – We love to solve problems, so be ready to share solutions.
  - Proactive, responsive team player who can thrive in a dynamic and changing collaborative environment – We are extremely busy and need you to be resourceful.
  - Ability to demonstrate intellectual curiosity and a willingness to learn
  - Candidates must be authorized to work permanently in the U.S.
-

### **Research Study – participate for \$10 gift card**

You are invited to take part in a research study being conducted by a team of researchers from Texas A&M University under the Principal Investigator Dr. Janie Moore. The information in this form is provided to help you decide whether or not to take part. If you decide you do not want to participate, there will be no penalty to you, and you will not lose any benefits you normally would have. You may choose to withdraw from the study at any time without penalty. The purpose of this study is to evaluate the feelings of upper-level students concerning inclusion and the utilization of co-curricular spaces and student support programs across campus. Overall, we hope that students will be able to identify gaps in inclusivity across the colleges and bridge them through knowledge gained during focus group programming. Participants will be asked to attend one focus group session and complete a pre and post survey evaluating current knowledge of and experiences with co-curricular spaces and student support programs. You will be compensated for your time.

If you are interested in participating please complete the Questionnaire by April 17th. If you are selected to participate we will send you an email with the date, time and location of the focus group. If you are one of the 50 participants, you will be compensated for your time with a \$10 gift card.

Thank you for your interest.
